Help Protect Our Ecosystem: Learn How to Control Invasive Weeds!

Invasive weeds like **Tansy** and **Scotch Broom** are causing harm to our local ecosystems by crowding out native plants, damaging wildlife habitats, and reducing biodiversity. The good news is that **you can make a difference!**

Date: March 29, 2025

Time: 2:00 – 4:00pm

Location: Scotts Mills Grange, 299 4th St, Scotts Mills, OR 97375

Join this informative session and learn how to manage and control these invasive plants, with expert guidance from the Oregon Department of Agriculture Noxious Weed Specialists.

This session will cover:

- How to Identify Invasive Weeds (Tansy and Scotch Broom will be the focus)
 - Understanding the Impact
 - Learn Proven Control Methods
 - Tips for Ongoing Care
 - Where to Get Help

When we all take action, we can reduce the spread of invasive species, protect our native habitats, and preserve biodiversity. It's not just about removing weeds—it's about caring for our environment and future generations.

Together We Can Make a Difference in Controlling Invasive Weeds!
